

CHI[®]

stone

Welcome to the CHI Tribe
and thank you for your
purchase of the CHI Stone!
This device is designed
to improve your traveling
experience, outings of all
kinds involving crowds,
and overall mood when
handling stressful and
frustrating situations.

WHAT PROBLEM DOES THE CHI STONE SOLVE?

Whether recovering from jet lag, emotional frustration from driving in traffic, or sickness during travel, the CHI Stone helps alleviate these challenges. When the body has been drained of much of its overall energy – or vitality, as we say – things like colds, irritation, anxiety,

and exhaustion often come into play. With the help of the Stone, these problems are gently and swiftly solved.

HOW TO USE

On the backside of the Stone (the side opposite the CHI logo), you will see a small button in the center. One quick push of this button turns the unit on and you'll see the light above it begin to flash. To turn the unit off, press and hold the same button until the light flashes quickly (almost looking solid), then release the button.

When the device is on, simply put it into your pocket (or if you don't have pockets, put securely inside your clothing as the device must be within one inch of your body to work properly). Keep it on your person during the entire length of your outing.

HOW CAN THE CHI STONE HELP ME?

The CHI Stone provides an enhanced experience with travel and in crowds of any kind. Traveling can have its hassles, from being cooped up in small quarters with strangers to spending hours on the road. Similarly, dealing with a cluster of people at crowded shopping

centers or concerts and celebrations and the like can be frustrating. The CHI Stone is well-equipped to keep you at peace and clear-headed during such experiences.

HOW LONG DO I NEED TO USE THE CHI STONE?

This will depend upon you and your circumstances. If you know you will be traveling, begin usage within 1-2 hours of the time of travel through the entire length of travel to your destination. Some people choose to use the CHI Stone as often as possible during

the entire length
of their stay
once they've
reached their
destination.

This is perfectly
acceptable -
you cannot overuse
the CHI Stone!

Others may choose to use
the Stone during times
when their vitality is low.

We recommend keeping the Stone on you at all times (except when in water – the CHI Stone is not waterproof) until vitality has been restored. This can take anywhere from a full day to one week.

HOW LONG DOES THE CHI STONE LAST?

The CHI Stone will last for 1,000 hours on a full battery. The batteries that go into the CHI Stone are CR2025 batteries.

WHAT HAPPENS IF I DAMAGE MY CHI STONE?

If the CHI Stone is damaged within the first year of the original delivery date, we will replace the unit for free.

1 YEAR
WARRANTY

Contact us at our website
www.chi.us

and we will send you a shipping label to return the damaged unit.

Once we have received the damaged unit, we will ship you a new CHI Stone as a replacement right away.

Visit our website to learn more about our mission to provide tools that empower the tribe to enhance the human experience by questioning the norm.
