

Infratonic 9 Battery Instructions

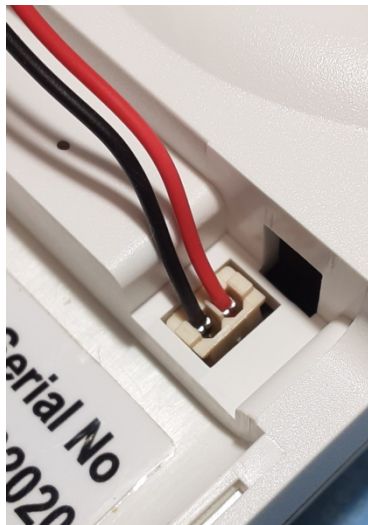

Also applicable with the Equitonic 9, Infratonic S & Scalene Light

1

Insert battery plug into the machine's port

2

Initial placement – this is NOT fully inserted into the port

3

Using something small and pointed (ex. pen, pencil, small screwdriver), push the 4 corners of the plug into the port

4

Continue pushing down until you hear the plug click into place; the machine will also “beep” when it’s fully inserted

5

Final placement of the battery and wire should look as pictured
