# Vital 1 INSTRUCTIONS FOR USE

1. **ON/OFF SIGNAL SELECTOR:** Press and release the ON/OFF Button 1 or 2 times to select desired signal:  
1 = *Calm, Resilient Strength* (LED light will do single flashes);  
2 = *Strengthen and Cleanse* (LED light will do double flashes).
2. **BATTERY INDICATOR:** During normal operation, the battery light will flash 1 or 2 times every few seconds, to indicate signal setting 1 or 2, respectively.
3. **BATTERY LOW:** Indicated by 3 short flashes and dimmed LED light.
4. **BATTERY REPLACEMENT:** Insert fingernail in battery door notch and rotate battery ring open. Replace battery and rotate door closed.
5. **TO USE:** Switch the **Vital 1** ON and place it in pocket or pouch within  $\frac{1}{2}$  inch of your body.

Before

After

*After 30 minutes  
with the **Vital 1** in  
pocket, the vital field  
gets much stronger

When your vital field becomes weak, energetic factors like an emotional encounter, a crowded environment, or electromagnetic activity interfere with your vital field, throwing you off balance, making you confused, upset, or overwhelmed, leaving you exhausted.

The new **Vital 1** strengthens the human vital field. Within minutes you will feel calmer and more focused, and environmental hazards like offices, airplanes, frustrated children, aggressive drivers and “pre-holiday frazzle” will have far less influence on you.
