

USERS GUIDE

Tune in to Well-Being

Welcome to the **CHI SUN**

At the center of our Solar System is the Sun. It doesn't just emanate the warmth that sustains life on Earth.

Its consciousness field acts to bring life and cooperation throughout the Solar System into coherent activity. This is achieved through harmonic resonance.

An example of harmonic resonance follows:

When a guitar string is plucked it sets up a vibration field. If a string on another instrument is tuned to the same note, it will start to vibrate in resonance with the first string's vibration.

Similarly, the CHI Sun attunes your DNA to the consciousness field of the Sun (the SunSong). With this attunement, your DNA will receive "updates" from the Sun through the SunSong.

QUICK START

1. Immerse yourself in the revitalizing energy of CHI Sun for 15 minutes daily. Simply give the center power button on the Silicone Sun two quick presses, then position the bright yellow foam side on your chosen body part. If you prefer a more discreet experience, one press activates the silent mode. For an auditory session, double-press the center power button.

2. Revitalize your CHI Sun by linking its USB-C port to a USB charging device. Wait for a brief period of 20-30 minutes as the charging light changes from red to bluen - a sign of a fully juiced battery. This full charge allows for about 80 sessions, each spanning 15 minutes.

ATTUNING TO THE SUNSONG

So often, our DNA gets confused by heavy metals, junk food, vaccines, and drugs. (epigenetic distortion). This separates our DNA from the SunSong.

Attunement re-establishes that link so the DNA can more fully express its natural wisdom. SunSong attunement also protects against, and even rejects divisive and separative influences.

Our modern world is so full of these divisive influences that our cells easily forget our true nature. In fact disrupting our coherence with the SunSong is often the intent of foreign agents.

A virus or bacteria will be unable to defeat our immune system if our resonance with the SunSong is strong.

Politicians, professionals, and the media all seek to control us with chemicals, fear, anger, misinformation, and so many other negative emotions.

This can pull us away from coherence with the SunSong so these influences can pull us into their sphere of influence. This can lead to degrading health and depressed mental states.

Lies are divisive. Coherence with the SunSong is resilience against lies and deception. Many processed foods are not food at all.

They are incoherent relative to the SunSong and drag our DNA into confusion and reduced immune competence.

The CHI Sun, as a SunSong Resonator lights a pathway back to individual sovereignty, cellular cleansing, resonant health, Joy, Love, and Bliss by helping to restore resonance with the SunSong.

*The CHI Sun guides
your DNA to resonate
with nature's rhythm.*

APPLYING THE CHI SUN

A simple 15-minute application of the CHI Sun to any part of your body initiates the process. Achieve this by pressing the button - the sun's core - twice until you catch the sweet melodies of nature's birds. Next, place the foam pad, located at the back, onto your body.

Place the yellow foam towards your body with the CHI Sun Facing out.

NOTE: When in a public setting and you'd rather keep the bird sounds to yourself, a single press of the button will do. This activates a subtle white noise, unnoticeable to those around, but still triggers SunSong generation. Bird sounds are usually preferred due to their ability to create a visual association with the SunSong's natural essence.

THE WRONG WAY TO USE THE CHI SUN

The only wrong way to use the CHI Sun is not to use it. As an example, you might put it in the bottom drawer or in an old suitcase and find it years later. This is a No No.

WHEN AM I DONE?

If you live in the forest and eat food from your garden, one week might be enough.

However, if you live in a technological world of cars, processed foods, and TV news you likely live in a leaky boat with coercive technological influences leaking in from all sides.

*In this case, the
CHI Sun is best viewed
as a constant companion
through life.*

HOW THE CHI SUN WORKS

The CHI Sun performs two key roles simultaneously. One, it generates a magnetic sound that works to scatter distractions, dissipate stressors, and that nagging self-doubt, while aiding our reconnection to the SunSong.

Two, it acts as a gravity light (gravito-magnetic), drawing the SunSong deeper into your body, boosting your feelings of connectedness, grounding, coherence, alertness, or vitality. Users have myriad descriptions for this heightened bodily Presence.

TAKE NOTE: If you're a 'More-is-Better' type, kick off with a 15-minute session on day one or even use the CHI Palm throughout the day.

This might result in peculiar or uncomfortable sensations as your body purges technogenic toxins.

Alternatively, if you're of the 'Gentle Pace' ilk, start with a one-minute session on day one, five minutes on day two, and slowly ramp it up, letting your Presence slowly reign over your biological processes.

Both strategies are effective.

Do what brings you joy!

APPLICATION

The SunSong signal of the CHI Sun travels easily through natural fibers so it works great applied through cotton, flax, wool, or rayon. This means you can apply it through most clothing or put it in your pocket.

Synthetic fabrics tend to degrade the coherence of the SunSong signal so be sure not to apply the CHI Sun through polyester, spandex or other synthetics.

CHARGING

Revitalize your CHI Sun by linking its USB-C port to a USB charging device.

Wait for a brief period of 20-30 minutes as the charging light changes from red to blue - a sign of a fully juiced battery.

This full charge allows for about 80 sessions, each spanning 15 minutes.

CARRYING POUCH

The CHI Sun is provided in a convenient carrying pouch which also carries an included short USB-C charger so you can charge it anywhere you can find a USB socket. You may also want to purchase a longer cord or USB charger.

USB-C is a very popular charging method so you may already have two or three suitable chargers and cords in your home.

This pouch is made of materials that conduct the Lightwave so you can activate the Chi Sun while it is still in the carrying pouch. Some find this more convenient than the CHI Sun itself, especially for application by holding in the hand.

To apply to other parts of your body it is often most convenient to take it out of the carrying pouch and to apply its yellow foam pad directly to the body.

WHAT TO DO IF IT BREAKS

The CHI Sun boasts an extremely robust build and a circuit design built to last (we estimate a lifespan of 10 years or more).

In addition, we offer a 30-day money-back guarantee and a one-year warranty for parts and labor.

Even in case of an unexpected accident, like your pet chewing it, getting washed and bleached with your laundry, or getting crushed by a tank, you can send it back to us with half the original price, and we'll replace it with a new one.

However, if a rhinoceros makes a snack out of it, or it disintegrates in a terrorist firebomb attack, we sadly can't help you.
